

What is "Homegrown & Homemade?"

It is my own version of Homegrown Hospitality, the magazine, but sorta like an "online" class similar to an "e-zine" but in my homegrown "way"..look at it like getting 8 project "classes-in-one" but the difference is, you will use the "stash" you already have, at your own pace, in your own home...in your jammies, if you want.

Imagine a "Blog-Like, Sorta Homemade Online Version" of the ORIGINAL Homegrown Hospitality...and each "issue/subscription" lasts for 8 weeks.

For the first four weeks, each Monday you will receive an email newsletter with inspiration, an introduction to the weeks project, a little "blah, blah, blah" from me & a direct link to the "Homegrown & Homemade" site that holds all of the Homegrown Goodness including PDF files of that weeks project!

The second four weeks, you will get a shorter newsletter with the link to the site with what I am calling "Inspiration without Instruction" Some learn by sight...some by direction. The first four weeks of projects are very detailed with instructions and photos...The second four weeks will be more basic projects with basic instruction. I want you to be able to be inspired by the photo to create that specific project...or maybe something totally different. Either way, it is a really good exercise for your "creative wings"

We are just finishing up the first 8 weeks of Homegrown & Homemade and here is a look at some of the projects we have done...

The next "version" is going to be much different....because it is going to be....

Are you ready??? I am going to teach you to doodle the way I taught myself, show you how I do it, what I use, and what you can do with all of the doodles you create. There will also be lots of “coloring pages” and projects on the site that you can do yourself, with your friends, or even with your kids.

The tentative launch date is May 15 for this class and you can pre-order your “subscription” NOW two ways...
